

WrapPak® PS

Compact size,
Versatile applications

Cost effective

Fanfold bundles of paper require less storage and transport space

Compact

Easy to integrate into every packing environment

Flexible

Suitable for many different applications

The most flexible solution for **box-lining, separating, wrapping** and many other applications

The WrapPak PS converter forms two sheets of fanfold kraft paper into a resilient and shock-absorbing 12 inch wide pad to protect products during shipment. WrapPak PS is ideal for securely wrapping products, lining the bottom or top of a box, and product separation. The converter can be used in 3 modes; foot pedal, EDS or pre-set mode. Due to the size of the converter, the WrapPak PS is easy to integrate into every packaging environment.

Go Green

Our company works with FSC and SFI certified suppliers. Paper is climate neutral, recyclable and also a renewable source.

Specifications:

Converter

- Dimensions: 20" x 15" x 23"
- Weight: 85 lbs.
- Power: 120 VAC
- Speed: 12" or 18" per second
- Cut method: Automatic

Paper

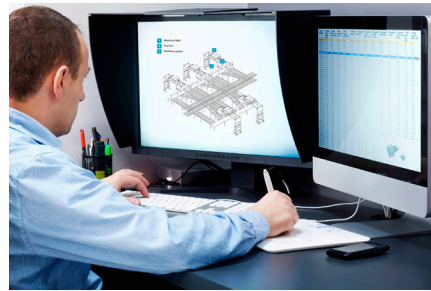

- Paper Options: 40/40, 45/45
- Bundle length: 1,325', 1,200'
- Bundle width: 15"
- Bundle weight: 23 lbs.

Our Added value

Packaging Engineering

Ranpak will analyze your current packaging solution and perform a drop test, demonstrating how much shock is transmitted to your products through the packaging. Ranpak then suggests proper packaging techniques to improve protection and save costs.

Integrated Applications

The Ranpak Custom Engineering department can design modifications, customizations and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

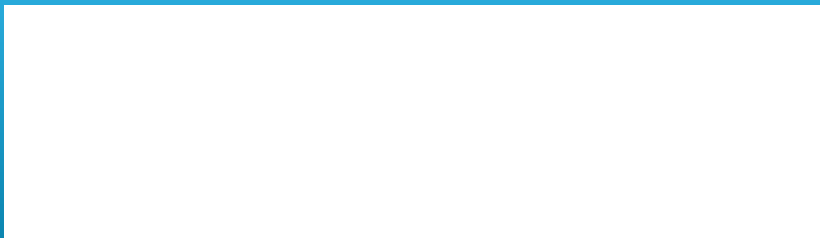

Packaging Training

Training from our packaging experts can help your packers use up to 20% less packing material without compromising the quality of the packaging.

Successful in these industries

Logistics	Industrial Parts	Cosmetics	e-Commerce
Automotive	Food/Beverage	Electronics	Agricultural Machinery
